

Weighbridge - Model TS 300 CC Prefabricated Concrete Weighbridge

Dimensions	Number of Load Cells	Capacity
9x3m	6	40tn
13,5x3m	8	50tn
18x3m	10	80tn

Product Description

The TS 300 CC is a new, transportable, full prestressed concrete weighbridge, an innovative design, which offers everything the users expect: Perfect weighing performance, strength, easy installation and maintenance, therefore a profitable investment. All weighbridge components are fully compliant to the European regulations and for legal metrology and to strict quality standards, offering a scale that will weigh accurately and trouble free over a lifetime under the harshest conditions.

With our model TS 300 CC we offer you the opportunity to select a completely transportable weighbridge with all the benefits this implies. You no longer require special transport to move this weighbridge. A standard 5T forklift truck will do for loading/ offloading and for the installation work. Due to its design characteristics it is possible to adapt this weighbridge to almost every special requirement without involving high extra cost.

Basic Features

- Complete prefabricated concrete and modular construction
- Designed for easy transportation
- Very easy to install with no special foundation required
- High precision load cells integrated in weighing modules
- DIN 8119 loading capacity (12t/axle)
